COMMENTS

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The independent claim defines an iron with a combination of elements including a liquid containing cartridge, a nozzle and pump for delivering the liquid to the nozzle and where the cartridge includes an outer wall with a vent. The vent includes a vent hole of diameter D_a for ventilating the cartridge and the vent includes a storage chamber for receiving excess water of liquid that passes through the vent hole. The storage chamber comprises a tube of diameter D_t and where D_t is greater than D_a . The dependent claims further limit the structure of the iron of the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Pertinent Citations

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Abraham illustrates an iron including a linearly movable valve 44 for venting the removable cartridge. Riddington et al. illustrates a hooded vent for an iron. Franklin et al. illustrate a filler cap including a venting hole. Viecelli et al. illustrate an iron having a pressure valve. Giovalle et al. illustrate a vent for venting the reservoir when the iron is horizontal or vertical.
